Update Information

This catalogue has been produced as a guide to assist the buyer in the purchase of replacement parts and we would appreciate advice on any of the information that appears to be incorrect in its application. Corrections and new model data will be included in future editions, which will be printed on a regular basis.

Your assistance will be greatly appreciated.

If you find an error or omission in our data, please contact: -

Disclaimer

Whilst every care has been taken in compiling this catalogue we **do not warrant** the accuracy of, or completeness of any information contained in this catalogue.

We will not accept any responsibility for damages arising from incorrect or unsuitable parts being fitted to any vehicle, it is the onus and responsibility of the purchaser to satisfy itself as to the suitability of any parts prior to purchase.

Any warranties and representations in this catalogue for products or services that you purchase or use will be subject to the agreed terms and conditions in the contract for such product or service.

Warning

This catalogue principally lists vehicles that were officially built or imported by the manufacturer.

It also lists some private, or "Grey Imports".
Due to the strong possibility of model, option or other component variations,
- **it is essential to check every item prior to installation.** .

Any application for these unofficially imported vehicles should be confirmed from sample.

ABS Equipped Vehicles.

New technologies have created new means of sensing the speed of a wheel for ABS and traction control purposes. Some ABS bearings/hubs are equipped with an obvious tone wheel, and or electrical connectors. Some applications may rely on much less obscure devices.
